

Midnight Rider – Grandest Limousine Around

That double take you did spotting a huge limo in Vegas may be justified. The “Midnight Rider” is the world’s largest and grandest limousine around.

In fact, Midnight Rider is a traveling luxury ground vehicle, cruising Southern California and Las Vegas with an 1,800 watt Sony surround sound in each of her three lounges, large screen televisions, a full bar, two bartenders and yes, a bathroom! Sweet.

Representative of the luxury days of railroad travel, she is classified as a “Tractor-Trailer Limousine”, and is the only one ever built. The air-ride suspension makes for a ride so comfortable, it allows you to stand up and move from lounge to lounge, mingling and partying with your group.
