## Speedline F11 Driver – Adams Golf

Although the weather still says it's winter, we all know that spring is just around the corner.

Avid golfers around the world have cabin fever as the cold winter and snows have kept many off the golf courses.

When you do escape from your winter hibernation, you want to make sure you have the best golf clubs and equipment available.

Take a look at the new Speedline F11 Driver by Adams Golf.

This new game-enhancing club club from Adams Golf, uses the company's patent-pending Velocity Slot Technology.

Hit great tee shots with the three visible channels that are found on the sole and crown of the driver, thus creating a larger footprint that helps keeps the critical airflow attached throughout your golf swing.

*Additional golf club highlights include:*

- Fifth generation aerodynamic club
- Reduces drag by 35 percent (see below)
- Increases swing speed
- More forgiving than previous Speedline models
- Sleek design allows golfers to gain as many as 12 yards per drive

The new Speedline F11 Driver by Adams Golf has a MSRP of \$299. Read more at [Adams Golf](#)
