

HydraFacial Pampering at Your Favorite Luxury Spas

Looking for a terrific way to look your best and treat your skin? We all want that perfect complexion, but it's hard to find the time with our busy lives.

Pamper yourself with a HydraFacial at one of these award winning luxury spas – The Spa at Whiteface Lodge in New York, SiSpa at Palm Beach Marriott Singer Island in Florida and SiSpa at Fort Lauderdale Marriott Pompano Beach in Florida.

The two waterfront, SiSpa spas are located in two of Florida's top resorts. Whiteface Lodge is found in the High Peaks of the Adirondacks, near Lake Placid, New York.

The HydraFacial is the most advanced and effective facial treatment available that consistently delivers quick results. A HydraFacial treatment consists of four simple steps to actually restore your skin to a youthful, healthy state. The goal is to enable your skin to function optimally.

HydraFacial was developed by Edge Systems LLC, and is the latest advance in non-laser skin-resurfacing systems. It offers a customized treatment to help all skin types reach their optimal state by improving the appearance of wrinkles, fine lines, oily skin, congested and enlarged pores, brown spots plus hyper-pigmentation.

The power of this medical grade treatment is it's the only hydradermabrasian procedure that cleanses, extracts, exfoliates, detoxifies and hydrates all at the same time! The result is delivering long-term skin benefits that were not previously achieved. The HydraFacial process actually uses Vortex-Fusion technology, thus offering both a physical and chemical exfoliation process that removes imbedded oils and debris, in addition to delivering skin-specific solutions that greatly improve the appearance of your skin.

The Spa at Whiteface Lodge:

Pricing for 25/50/80-minute treatments is \$125/\$195/\$265 (Friday-Sunday) and \$115/\$185/\$255 (Monday-Thursday)

SiSpa at Palm Beach Marriott Singer Island:
